

Together

The Firm

Now that I'm a man
I understand I need someone to share
This wonderland together A woman and a man
Should find romance
So come on take my hand
We'll learn to dance together Living in dreams
Making them real
Know what it means when they say Now that I'm a man, I
I understand a woman needs a man
To share this life together Living in dreams
Making them real
Know how it feels when they say Yesterday shadows on my mind
Yesterday love so hard to find
Now today giving me the sign
Telling me just what you need Living in dreams
Making them real
Know how it feels when they say Yesterday shadows on my mind
Yesterday love so hard to find
Now today you're giving me the sign
Oh you're telling me just what you need
