

# Dreamville

## Tom Petty & The Heartbreakers

Goin' down to Lillian's music store  
To buy a black diamond string  
Gonna wind it up on my guitar  
Gonna make that silver sing  
Like it was dreamville  
A long time ago  
A million miles away  
All the trees were green  
In dreamville I keep wakin' up all by myself  
With a blue jay in my brain  
Flappin' his wings  
Making me sing  
It was just about to rain Like it was dreamville  
Where I was born  
Light-years from here  
And the air smelled good  
In dreamville Ridin' with my mama  
To Glen Springs pool  
Water was cold  
My lips were blue There was rock and roll  
Across the dial  
When I think of her  
It makes me smile Like it was dreamville  
A long time ago  
A million miles away  
All the trees were green  
In dreamville  
In dreamville It was in dreamville  
A long time ago  
Light-years from here  
And the air smelled good  
In dreamville
