Deliverance (Redemption Mix)

Girls Under Glass

Under a million silent stars
In the night, in the night
We walk together hand in hand
In the darkness, side by sideWhen the dawn is coming
You go home
You said you go forever
Leave me alone, aloneLove is like a red rose
Beautiful she shines
Until you start to own
She begins to die aloneLove becomes a dead roses
Beauty without substance
Living in a wrong world
Waiting for deliverance
Deliverance
