

# What If

## Bombay Bicycle Club

I could go and ask her first  
You could try but it won't work  
I don't want my cover blown  
I should do this on my own  
The night has gone and I'm walking home  
But I still don't, I still don't know  
(repeat) If only one of us had the guts tonight  
It's so hard to find the silent type  
Someone shy who won't spread the hype  
You're so cold and you're in this crowd  
And I am on my way now  
The night has gone and I'm walking home  
But I still don't, I still don't know  
(repeat) If only one of us had the guts tonight  
What if one of us had the guts tonight?
