Captain's Chair

Sanctus Real

Where did you go? How have you been?
I'll be right here
Where did you go? How have you been?
Are you still my best friend?Where did you go? How have you been?
I'll be right here
Where did you go? How have you been?
Are you still my best friend?And we've seen best of times
And we've heard worst of lies
But here we stand
Still we standWhere did you go? How have you been?
I'll be right here
Where did you go? How have you been?
Thinking of remember whens?And we've seen best of times
And we've heard worst of lies
But here we stand
Still we standAnd we've seen best of times
And we've heard worst of lies
But here we stand
Still we standAnd you will take the driver's seat
And I will take the captain's chair
And you will take the driver's seat
And I will take the captain's chairAnd you will take the driver's seat
And I will take the captain's chair
And you will take the driver's seat
And I will take the captain's chairAnd we've seen best of times
And we've heard worst of lies
But here we stand
Still we standAnd we've heard worst of lies
And we've seen best of times
But here we stand
Still we stand
And here we stand
Still we stand
