Im a Watch Dog

NerdOut

Don't follow me, don't bother me
I'm gonna take over your technology
I'm a nobody, I'm a rock star
This is DEDSEC, I'm a WATCH DOG

I'm not an activist, I'm a hacktivist
I'm from Oakland, baby, that's where my action is
The HDC, they was hating on me
So, I took 'em out in the blink of an eye, no accident
Now, I'm huntin' my next target
This is DEDSEC, we are not harmless
People on a mission, get up in the system
Yeah, data phishin', takin' over the market

You can call me an arson, the way that I start sh*t
Martians seeing my dirty work form a starship
Harness the power to the cell phone tower
That bounce to satellites, you damn right I'm an artist

Your firewall is weak, It's so see through
Only takin' a couple of second to defeat you
BLUME better pray I don't ruin the day
Cause if you stand in my way, I CTRL+ALT+DEL you

(I am not just a hacker, but they say looks are deceiving
And I might cause a disaster, but I'm doin' what I believe in
Don't follow me, don't bother me
I'm gonna take over your technology
I'm a nobody, I'm a rock star
This is DEDSEC, I'm a WATCH DOG.) (2x)

We hack for our freedom, hack for the LULZ
Hack anybody that's opposite on our goals
Hackin' the city my people are comin' with me
And if ya phones gettin' glitchy, we about to take control
Welcome to the bay, this is San Francisco
Wit' a flick of the wrist, put ya vehicle in limbo. Stalin'
Got cash for me and my kinfolk
So simple. (DATA MINING ALL YOUR INFO)

Marcus. Jackin' your security. Bro I'm so awesome
Flyin' over head wit' a drone. I'm just flossin'
CTos is a cancer, what's the answer?
DEDSEC is the antidote

Your firewall is weak, It's so see through
Only takin' a couple of second to defeat you
BLUME better pray I don't ruin the day
Cause if you stand in my way, I CTRL+ALT+DEL you

I am not just a hacker, but they say looks are deceiving
And I might cause a disaster, but I'm doin' what I believe in
(Don't follow me, don't bother me
I'm gonna take over your technology
I'm a nobody, I'm a rock star
This is DEDSEC, I'm a WATCH DOG.)

I'm gonna fight this city. Don't have to break them on my own
Cause on my phone, I'm controlling the world. (2x)
(Don't follow me, don't bother me
I'm gonna take over your technology
I'm a nobody, I'm a rock star
This is DEDSEC, I'm a WATCH DOG.)
