

Wendy

Short Stack

Close your eyes,
I can't see you
Anymore than i can see me here with you
And I'll defy the whole galaxy
Just to be here in your arms under the moonJust so you know
I'm in over my head
And i can't touch the ground
But nothing is going to stop me nowWendy
We'll defy the stars together on the moon
For you singing
Wendy
So wrap around me
Forever, forever for youDry your eyes, little darling
And I'll break just break like china doll in two
And my disguise
Little darling
Is a hole inside my heart that's built for twoJust so you know
I'm in over my head
And i can't touch the ground
But nothing is going to stop me nowWendy
We'll defy the stars together on the moon
For you singing
Wendy
So wrap your arms around me
Forever, forever, for you(Wohh!)This is the last time
I won't apologise to you
No matter what I've done
This is the last time
Looks like we won't pull through
So baby let it shine
So baby let it shineSo baby let it shine!
We'll defy the stars together on the moon
For you singing
Wendy
So wrap around me
Forever, forever for youWendy
We'll defy the stars together on the moon
For you singing
Wendy

So wrap around me
Forever, forever for you...
