

# Too Late

Noel Gourdin

[Chorus]

Is it too late to change your mind  
I was hopping I could see you just one more time  
If its too late to get you back  
I'll move on along you just like that

It's been a whole year since we talked  
And I been missing you  
And everything alright with me  
I wanna know how life's treating you  
I was dead wrong always gone  
Leaving you home alone when I should of been there for you

[Bridge]

Theres something I wanna say  
Pride got in the way  
Should of stopped you at the door  
Should of loved you more  
But now that your gone away I feel it everyday  
So much pressure babe  
I wanna catch a flight  
Ill be there tonight

[Chorus]

Its no one else's fault  
Girl I paid the cost  
If you don't return well I guess its just my loss  
Can I get a second chance  
Can I get one more dance  
Now I realize that I need you in my life

[Bridge]

[Chorus]

I made it so complicated, and now shes jaded  
Cause I procrastinated I never meant to do her wrong  
I regret that it took me so long  
To see you that I was hurting my baby

I think I'm getting faded  
You see I took her for granted and I couldn't have planned it much worse  
But sugar I gotta know

[Chorus]

Is it too late, is it too late  
Give me a try, give me a try  
Is it too late, is it too late  
Give me a try, give me a try
