Said & Done

Kilians

Oh wow we got nothing more
Why it feels like you did before
You are staring at the other one
Thinking up for what I said and doneI said I wanna love you more
Why you're reacting like you did before
Still you're staring at the other one
Thinking up for what I said but never doneNow you know you got no where to go
As you past out and feeling old
And you know you never got it wrongWhere did you go, my darling?
Why is it so, guess I'm on my own
Oh please my heart is starving
So where did you go?Although there is nothing more
I don't know what you are looking for
you may turning to another one
and change what I said and doneI said I wanna love you more
Don't you see there is someone to adore
You have turning to another one
and changed what I said but never doneoh you know you got no where to go
what you find out and makes me smile
and you know I always get it wrongWhere did you go my darling?
Why is it so, guess im on my own
Oh please my heart is starving
So where did you go?I'm in control of what I
I said and done but it's alright
And let me know my darling
Oh where did you go?wuhuhuhuhu
wuhuhuhuhu
wuhuhuhuhu
wuhuhuhuhuI said now
I said now
I said now
I said nowWhere did you go my darling?
Why is it so, guess im on my own
Oh please my heart is starving
So where did you go?I'm in control of what I
I said and done but its alright
and let me know my darling
so where did you go?I said now
I said now

I said now
