

Dark Road

Maguta

It's a long dark road that I call my home
It's a long dark road that I'm cursed to roam
These many nights I've been banished here
 My companion is the stars
 With a bed roll and a blanket
 And just the rocks to lay my bones
One day from the darkness I'll come rapping at your door
 And I'll never walk this road anymore
 It's a long dark road that I call my home

It's a long dark road that I'm cursed to roam
These many nights I've been banished here
 My companion is the stars
 With a bed roll and a blanket
 And just the rocks to lay my bones
One day from the darkness I'll come rapping at your door
 And I'll never walk this road anymore
 No, I'll never walk this road anymore
 No, I'll never leave this home anymore
