

# New Bae

## Vic Mensa

[Hook]

Let me pick my face up off the floor I'm off the D'usse  
I've been going so hard this week and shit it's only Tuesday

I left my bitch at home, I think I need a new bae

I left my bitch at home, I think I need a new bae

I fuck the twins and get twisted, get twisted some more

Better be good to me, girl

I see your eyes when you look at me, I see your soul

Better be good to me, girl[Verse 1]

Yeah Yeah, I like the way you

That shit so bad, she looks so good everytime she gets low

I'm like the [?] baby, but baby girl I'mma tell you when to go

We skip the bed every time that we fuck we get straight to the floor

I bought a ticket you get on the road

She says she lives in Australia, I fly you out to Chicago

She doesn't like the cold weather, she wants a vacay, a vacay, a [?]

She got the frame of a model, I wanna ride like a saddle

I fall in love with her, fuck like a stallion

Fresh out the shower, [?]

My new bae, you're my new bae

Let's make a movie, [?]

Who cares? You're my new bae
