Tied to Me

Clout

And all of these days they pass like water
Should I even tighten the grip of my hand?
I get the sense that we're all chasing after
The same simple thing that I don't understandTo carry you onAnd you wear a color that I don't remember
Your hair so much shorter than it used to be
Years cannot change all the secrets we gathered
Years cannot change what you still mean to meTo carry you on
Carry you on
Carry you on
Tied to meI'd like to linger with you till the morning
And pretend the winter has given to spring
Conjure up guilty reminders together
Fade into this like we both used to beTo carry you on
Carry you on
Carry you on
Tied to meCarry you on
Tied to me
Carry you on
Tied to meCarry you on
Tied to me
Carry you on
Tied to me
