

Come On Baby (let's Do The Revolution)

Chumbawamba

Come on baby, let's do the revolution
Six for the record, and seven for the t-shirt
A picture of the band
And a ticket for the promised land
Watching all the bouncers
Systematically beating up the dancers
To the rhythm of a pocket of change
Here's the group with all the answers

Vote for the party and keep your mouth shut
Same chains of command
All the power taken out of our hands
Politics pays the piper in this company land
Come on baby, let's do the revolution
They say we'll all be equal
When they take control
Vote for the party and wallow in our rock and roll
Roadie! my guitar!
