Runaway Run

The Sunshine Fix

And I waited for you
And I waited for you
Just a picture and a feeling and your face
How could I forget your touch, your warm embrace?
And the shoes you wore with long black satin lace
As you walked into my mind
As you walked into this old forgotten hall
Just one look and I began to fall
Wish I could frame you and this feeling on the wall
Stare at it 'til there is no time
Ohh...
And I waited for you
Just hoping that you'd come back to me
And I waited for you...CHORUS
Run, (run) run, runaway run
Maybe someday I'll find someone to
Run, (run) run, runaway
Maybe someday, maybe somedayFrom a distance I watched the flowers brush your cheek
As you read the words I wrote, I couldn't speak
But now I lay here, broken heart and blistered feet
As you're spinning 'round my mind
And I waited for you
Just dreaming of you coming to me
And I waited for you...CHORUSWhen your weak you can know that it's alright
As you sleep, I can follow you all night
We can talk just as long as you hold on tight
Just one breath is a million sighs
I can tell every breath that you're breathing
I can feel every thought that you're thinking
We can talk 'til a thousand years gone by, you and
I...CHORUSRun, run, runaway run
Maybe someday I'll find some way
Maybe someday
Maybe someday
I'll run away
