

# First Week/Last Week...Carefree

## Talking Heads

Can we run that again, is that a woman's voice I hear?  
I said, let's wait and see, I'll see for myself  
That's a phrase I repeat to myself  
Made a reference to me and that's myself too  
What progress I have made the first week  
First week, first week, first week Every sentence I used referred to women and their names  
I heard the voice first last week I heard it myself  
Made a reference to me and that's myself  
This report's incomplete I can see for myself  
Every appointment has been moved to last week  
Last week, last week, last week I heard the voice first last week, I heard it myself  
Made a reference to me and that's myself  
This report's incomplete I can see for myself  
Every appointment has been been moved to last week  
Last week, last week, last week
