

# Body Work

Morgan Page

Body work  
You do your body work  
Body work  
You do your body work  
I still wanna see you tonight  
Will you be around?  
I still wanna get you alone  
Will you be around  
Be around Can I take all the steps I'm planning tonight  
Without risking it all  
Can I make all the moves I'm making tonight  
Without hurting you back  
You do your body work  
You do your body work  
You do your body work  
I won't give you what's right  
You still come around  
I won't put up a fight  
You still come around  
Come around  
Come around  
Can I take all the steps I'm planning tonight  
Without risking it all  
Can I make all the moves I'm making tonight  
Without hurting you back
