

Sacrifice

Alaine

OK ..ready
For you (I swear)
For you (I will)[chorus:]
For you I will sacrifice for all of my life
You and me will be together
For better or for worse
I vow through ups and downs
Here and now until forever
I'll sacrifice Baby, you and me
Made it through so much
So many storms have come and
Still we're holding on
And I would be a fool to find your love
And then just let it go
It's me and you and you already know that...[chorus] You've shown that you love me unconditionally
Through whatever, you'll stay by my side
You're the one I trust with all my secrets
All my hidden fears
I run to you and you are always there[chorus] Sacrifice my love, my life
Baby, I know I will adore
Our love will see us through it all
To you, to love, I'll hold on tight
No matter what may come my way
I'll do whatever it takes[chorus x2]
