

# You Did Cut Me

## China Crisis

Hear my silence, see my blindness  
A love ascending, and never ending  
You did cut me, from the same tree  
A love incision, my inner vision Loving on our hands and knees  
Always trying hard to please  
Never in my life have I  
Questioned or discovered why Live and discover  
Take from each other  
A love believing  
And never deceiving Loving on our hands and knees  
Always trying hard to please  
Never in my life have I  
Questioned or discovered why
