

Turn It Up

Kim Kardashian

Turn it up Turn it up turn it turn it turn it up
Turn it up Turn it up turn it turn it turn it up
So I can rock the night away, away
I'mma burn it up tonight it's going down
By live via satellite
All I'm seeing angels in my eyes.It's going down
Heading straight to the front of the line
On the fly, on the floor I can't stand still
I am going to work like I am paying my bills
Party, and party some more
Rose up in the air, feeling good, feeling greatTurn it up, turn it up, turn it up,
So I can rock the night away
I'mma burn it up tonight it's going down
By live via satellite
All I'm seeing angels in my eyes.It's going down
Heading straight to the front of the line
On the fly, on the floor I can't stand still
I am going to work like I am paying my bills
Party, and party some more
Rose up in the air, feeling good, feeling greatTurn it up, turn it up, turn it up,
So I can rock the night away
I'mma burn it up tonight it's going down
By live via satellite
All I'm seeing angels in my eyes.Turn it up, turn it up, turn it up,
So I can rock the night away
So I can rock the night away
Turn it up, turn it up, turn it turn it turn it up,
Turn it up, turn it up, turn it turn it turn it up.
