

# The Night

## Honne

Spend the night and I will make it worth your while  
Let's build a life that we can both live out of style  
Come into the light, don't you think to run a mile  
If you spend the night with me,  
I will make it worth your while Oh, invest time in me  
'Cause I am risk free  
We can make this work  
That's my guarantee  
Oh, show me how to love you,  
So we can go far,  
We can make it work  
Yeah, we can make it  
If your love is with me,  
You'll be my baby  
Oh, yes you will  
Oh, yes you will  
If your lips are near me,  
You'll be my baby  
Oh, yes you will  
Oh, yes you will Spend the night and we will make it worth the while  
Let's plan the life we can get this thing a trial  
Lift up your head, won't you let me see that smile?  
If you spend the night with me,  
I will make it worth your while  
Oh, invest time in me  
'Cause I am risk free  
We can make this work  
That's my guarantee  
Oh, show me how to love you,  
So we can go far,  
We can make it work  
Girl, we can make it If your love is with me,  
You'll be my baby  
Oh, yes you will  
Oh, yes you will  
And if your lips are near me,  
You'll be my baby  
Oh, yes you will  
Oh, yes you will Spend the night and I will make it worth your while

Let's build a life that we can both live out of style  
Come into the light, don't you think to run a mile  
If you spend the night with me,  
I will make it worth your while If your love is with me,  
You'll be my baby  
Oh, yes you will  
Oh, yes you will  
If your lips are near me  
You'll be my baby  
Oh, yes you will  
Oh, yes you will x2
