Don't Run

Jordan Knight

I feel like the world is on my head
I don't wanna lose what made me a man
Still when I call your name
I wait you'll say, you're so far away
Now that I feel the well so dry
I need you to fill me up inside
Baby, you turn me on and on
Just wanna hold you
I'm dying to show you
Don't run from me
Don't turn your back on me
We're getting closer
Don't say that it's over
Don't run from me
Don't turn your back on me
Come out of the dark
Don't tear us apart

Don't run from my heart
It took me some time to understand
What all along I held in my hands
If you give me one more chance
I'll prove I'm true to you
Now every night it seems so wrong
I'm here all alone where you belong
Girl, let me turn you on and on
I'm such a dreamer
When I'm sleeping, I'm thinking of you
A million roses, waterfalls around a bed for two
Sippin' fruits with the best, babe
I'm not here for the rest, babe
Need your candlelight, sweet love tonight
I can't afford to lose you
