Let Her Dance

Bobby Fuller Four

Well there she goes with a brand new love affair
Dancin' with him like she don't even carer
Well let her dance with him
Let her dance all night longr
Well who would've known that just yesterday
She danced with me the very same way
Well let her dance with him
Let her dance all night long
Chorus:rnWell let her dance with him all night long
Ler dance to our favorite song
Well let her dance with him let her dance all night long
Well I'll find me a new lover
And then she'll seern
Someone else will be dancing with me
Let her dance with him
Let her dance all night long
Chorus (2x's)
