

Oxygen

Spice Girls

There will come a time I know I'm gonna need
Someone I can trust, someone who'll fight for me
That's the way I love
This is my time to work things out what I want from this life
There will be someone out there for me
That's the way I love
It doesn't really matter whoever you are don't matter where you go
Just make sure you're there to answer when love comes around
Don't be surprised when love knocks at your door
You're the breath that I take you're the smile on my face
Every time I breath in brings me warmth from within
When you touch me I start believing loving is like oxygen
Even when we're so far apart I still feel you in my heart
'Cause you've given me the greatest gift of all
That's the way I love
The way I love is easy, but could it ever be for me?
This situation seems so insane it's all about feeling without insecurities
That's the way I love
It doesn't really matter who ever you are don't matter where you go
Just make sure you're there to answer when love comes around
Don't be surprised when love knocks at your door
You're the breath that I take you're the smile on my face
Every time I breath in brings me warmth from within
When you touch me I start believing loving is like oxygen
(You're in every breath I take)
Imagine a life without love I'd be so afraid
(So afraid)
'Cause the love that we share would be hard to replace
Baby hold me and never leave me this love is my oxygen
(This love is my oxygen)
Open your heart take a deep breath stop searching and start believing
Make sure you're there to answer when love comes around
Don't be surprised when true love knocks at your door
You're the breath that I take you're the smile on my face
Every time I breath in brings me warmth from within
When you touch me I start believing loving is like oxygen
(You're in every breath I take)
Imagine a world without love I'd be so afraid
'Cause the love that we share would be hard to replace

Baby hold me and never leave me this love is my oxygen
(This love is my oxygen)
