Turn Up Your Radio

Masters Apprentices

Rockin' and rollin', you're still doing it now
15 years today and you remember how
You're gonna hear it now
Blastin' out your radio
Listen to the music now
Turn Up Your Radio, Ahhh..... yeah... alright

Stop what you're doing and listen to us

1956 the jukeboxes really jumped
The bass guitar and drums they really thumped
Everybody's learning from what they did a long time ago
Listen to the music now
Turn Up Your Radio, Wha.....yeah...alright

One, two, three o'clock, four o'clock rock
Five, six, seven o'clock, eight o'clock rock
Nine ten, eleven o'clock, twelve o'clock rock. We're gonna rock!
Ahhh
Oh yeah we gotta rock around the clock baby. I'll tell you what I do
Yeah you gotta rock around the clock Danny boy
