Make It Better

[Evan & Jaron](#)

I don't know what's happening to me
I can't remember things I used to believe
I caught myself just the other day
Stealing color from words and leaving them gray
I've fallen down a time or two
But no one was looking so I'm not telling youI got to make it better, make it all right
Got to find me a ladder to reach the light
I got to move to the exit, single file line
Before the fire spreads to my head and burns my mindIt's been real but it's time to go home
Time to change back to the clothes that I own
I could use some heavier shoes
To ground me in feelings I don't want to lose
I've fallen down a time or two
But no one was looking so I'm not telling youI got to make it better, make it all right
Got to find me a ladder to reach the light
I got to move to the exit, single file line
Before the fire spreads to my head and burns my mindAll this time, I never knew
That it ever meant anything to youI got to make it better, make it all right
Got to find me a ladder to reach the light
I got to move to the exit, single file line
Before the fire spreads to my head and burns my mindI got to make it better, make it all right
Got to find me a ladder to reach the light
I got to move to the exit, single file line
Before the fire spreads to my head and burns my mindMake it better, make it all right
I got to make it better, make it all right
