## Near Miss

Stuck in this room, motivations sunk deep  
Outsides a called place, yesterday's thoughts to keep  
    This world seems like miles away  
    So follow the joke of hearsay  
A moment in caution still we live for todayBut I'll help you and I'll be true  
    Label your words and thoughts lived through greed  
    Still you find yourself  
Living someone else's dreamStuck in this room, I'm forced to fall asleep  
    I wish I could leave  
    And you're never what you seemed  
This world seems like awaySo pretend and follow and everything's okay  
    Still we live for todayBut I'll help you and I'll be true  
    Label your words and thoughts lived through greed  
    Still you find yourself  
Left only to perceiveThat the world is wasting away  
    So pretend it's only one day  
    And to think you'll end up nowhere  
    It wouldn't be fair and within your ride  
    No one ever drove, no one ever cared
