

Nobody Loves Me Like You Do

Bellefire

In the morning
In the evening
Anytime at all
I'll be ready, baby when you call
In the darkness
I'll be waiting
With nothing but a smile
You got me crazy
I just want what's mine
I don't need another love song
You're the only thing that turns me on
Nobody loves me like you do
Nobody understands, everything I am
Nobody else could ever take your place
You're all that I want

I'm in heaven now
Nobody loves me like you do
Don't be tired
Don't be late now
Don't forget your key
I'll be right where you should be
Don't you know you're taking too long
You're the only thing that turns me on
Nobody loves me like you do...
You got something that's so true
I need your loving like a heartbeat
You're my everything cause I believe
Nobody love me like you do...
