Very

Moby

Soon we will make it
Inside, ohh inside
Love you won't be alone
Inside, oh inside
Pain
It's cold out there
So come inside
So come inside
Pain
It's warm in here
So come inside
So come inside
Now we will make it
Just you, you and me
Soon we will take it
Just you, you and me
Pain
It's cold out there
So come inside
So come inside
Pain
Pain
Pain
It's cold out there
So come inside
So come inside
Pain
It's cold out there
So come inside
So come inside
Pain
It's warm in here
So come inside
So come inside
Pain
It's cold out there
So come inside
So come inside
