Forever Works for Me

Neal McCoy

Baby, you made me, the happiest I could be
Tonight when you told me, you're love is here to stay
So I took out my calender, the second I got home
And I wrote your name on every pageI can see you Monday, Tuesday, Wednesday, Thursday
How 'bout Friday night?
We might as well spend the weekend
Gettin' all our plans just right
'Cause now that I know together works for you
Forever works for meTwo weeks from Sunday, ten years from next Monday
As long as I'm with you, it doesn't matter much
We can go some place for away, or just stay home
It feels so good to be in loveI can see you Monday, Tuesday, Wednesday, Thursday
How 'bout Friday night?
We might as well spend the weekend
Gettin' all our plans just right
'Cause now that I know together works for you
Forever works for meI can see you Monday, Tuesday, Wednesday, Thursday
How 'bout Friday night?
We might as well spend the weekend
Gettin' all our plans just right
'Cause now that I know together works for you
Forever works for meJanuary, February, summer, fall and spring
Every week and every day, I'll give you anything
'Cause now that I know together works for you
Oh, 'cause now that I know together works for you
Forever works for meMonday, Tuesday, Wednesday, Thursday
How 'bout Friday night?
January, February
Make all our plans, make all our plans just right
Monday, Tuesday, Wednesday, Thursday
Friday, Saturday and Sunday
January, February
March and April come one day
Monday, Tuesday, Wednesday, Thursday
