We Will Rise

The Dirty Heads

Oh.We will rise, we will rise, until we die, until we die, until we die, until we die
Oh.We will rise, we will rise until we dieWell Im rude boy for life and yes I carry a knife inside my mouth
And when I speak it likes to come out just to slice
I try to keep it under wraps I push and pull and fight
But it loves to come and cut when sucker MCs try to bite
So now theres too many MCs running around get cutted up
And if you want me to stop you can tell me to shut up
Cause I was born with this mouth and yes my horns poking out
And yes Im devilish. No, Im not Bob Marley but Im soul rebeliousOh.We will rise, we will rise, until we die, until we die, until we die, until weIf you give up, tell me how you wake up every single morning
Remember you were younger and did everything you wanted
Didnt have a worry only had a dream and you chased it
Now you realize your time was wasted
Dwelling on the whack shit Look at those who make it.
It takes hard work and practice
Nothing comes easy they say but to me
Lifes easily thrown away by those who can't see that
Cause once youre gone you can never get these times back.Oh.We will rise, we will rise, until we die, until we die, until we die, until we die
Oh.We will rise, we will rise, until we die
