Fumbles O'brian

Attack Attack!

There is only one thing that can fill my chest
As I go through the options that are useless
Looking for a reason, there's something to live for
Everything seems to fall short
Oh, my love, you need to just keep breathing
Let your heart beat slowly
Oh my love, I was never meant to fill your gut
And, oh, I can still feel you forever
'Cause I'm not your knight in shining armor
A man that you might call for everyday
There is only one thing that can still my fear
As I look for the meaning, you are still here
There can only be one guy
There can only be one guy
Shorty, you're on my mind, yeah
Shorty, all of the time, yeah
Shorty, you're on my mind, yeah
Shorty, all of the time, yeah, oh, yeah
Oh my love, I was never meant to fill your gut
And, oh, I can still feel you forever
'Cause I'm not your knight in shining armor
A man that you might call for everyday
