Pretty Lil' Heart

Robin Thicke

[lil' wayne]this is for the lovers and the sexy mother, mothers
love is in the air, i pray to god i do not suffer
kay, late night, lights, steam, candles lit
she say weezy flush me harder
i say ooh, you the ooh
you commit, i commit
she say she love me, i'm convinced
don't need a rocket scientist to see that you and i are meant
i meant to tell you, you the reason i smile more
who i fell for, you know i beat, that beat,
that uh, rocky balboa
girl i'm just playing unless you aint
and i can't think
if there ain't a thought about you
matter fact that's all i do
i put you first, now tell me that
we'll never be apart
now i say, please girl don't you go breaking
my pretty little heart
[robin thicke]tell me something sweet
tell me something nice
tell me something good
baby, tell me it's alright
tell me that you love me
tell me you'll be there, fair
i get so worry, sometimes
the world will not be there
tell me that i'm sexy
like i was before
tell me i got it
that you want it even more
tell me that you'll never, ever
ever leave my side,
tell me cause you know
i need to hear it every night
[chorus]baby you got me don't worry your pretty little heart
i said,
baby you got me don't worry your pretty little heart

[robin thicke]tell me who you with
tell me where you were
tell me did you go out
and start talking to some girl
i want to believe it
you know how hard i try
after all we've been through
it's so hard to say goodbye
tell me that the future is getting brighter now
tell me that we'll make it
that we'll make it somehow
tell me it's forever
that we'll never part
tell me that you'll never break my pretty little heart
[chorus]baby you got me don't worry your pretty little heart
and i said,
baby you got me don't worry your pretty little heart
[robin thicke]tell me that's the money
tell me i'm a star
tell me that you'll never break my pretty little heart
say you'll take me places
everything's okay
tell me cause you know i need that pump up everyday
tell me that's your money
won't get in our way
tell me that the chance i take, won't blow up in my face
tell me that you'll do it
that you'll do it real
i'll leave you if you break my pretty little heart, i will
[chorus]and i said
baby you got me don't worry your pretty little heart
i said
baby you got me don't worry your pretty little heart
baby you got me don't worry your pretty little heart
and i said
baby you got me don't worry your pretty little heart
don't you worry, your pretty little heart?
i got you, you got me
i love you, i love you, i love you baby
