

Horizon

MIYAVI

Imagine nothing in the morning light
If the world ended we had one last nightSo every man has danced through history
 Around the fires from the clouds to seas
 And in our life we have an instinct for us
To move, to move, to moveIf you come with me don't fall behind
 With the horizon in sight
 Just imagine let go of your mind
Like we're on the edge of lightWe'll be going likeYeah oh "We want it all" oh oh oh oh
 We want it all
 Yeah oh "We want it all" oh oh oh oh
Before it ends tonightSo tell me what this life is all about
'Cause we've been close but time is running outImagine dancing on horizon's floor
 We do what's natural to us once more
 The world might end tomorrow but one thing
I know, I know, I knowIf you come with me don't fall behind
 With the horizon in sight
 Just imagine let go of your mind
Like we're on the edge of lightWe'll be going likeYeah oh "We want it all" oh oh oh oh
 We want it all
 Yeah oh "We want it all" oh oh oh oh
Before it ends tonight.If you come with me don't fall behind
 With the horizon in sight
 Just imagine let go of your mind
Like we're on the edge of lightWe'll be going likeYeah oh "We want it all" oh oh oh oh
 We want it all
Yeah oh "We want it all" oh oh oh ohWe'll be going likeYeah oh "We want it all" oh oh oh oh
 We want it all
 Yeah oh "We want it all" oh oh oh oh
Before it ends tonight.It ends tonightBefore it ends tonight
