

The Creature Walks

He Is Legend

Can you find my angel?
She crawled under the bed
I thought I saw her breathing
But found out she was dead It's too late, it's over
Can't you feel these dreams? It's over
Message to the queen, it's over
The baby stops breathing, it's over
Can't you feel these dreams? It's over Could you call a doctor
Who can stop by at nine?
Well, I planned this day for dying
But now, I'm feeling fine It's too late, it's over
Can't you feel these dreams? It's over
Message to the queen, it's over
The baby stops breathing, it's over
Can't you feel these dreams? It's over The creature is walking, the creature I've got to find a new passage way
I've got to get home by Saturday
Queen to castle, church to nun
What a wicked web I've spun I've got to get home by Saturday
So I have to find a new passage way
I've got a car with no place to go
How 'bout a little fire scarecrow? Wake yourself up, you've been dreaming again
About having new friends in a ghost town
Wake yourself up, you've been dreaming again
About having new friends in a ghost town Can't you feel these dreams? It's over
The baby stops breathing, it's over
Message to the queen, it's over
Can't you feel these dreams? It's over
It's over, it's over, it's over, over, oh yeah
Alright, come on
