Feel It Burn

Kim Mitchell

No one could ever need you
As much as I do tonight
Everyday that you're gone
I die a little more insideMaybe I'm afraid
You didn't explain
Our love was made to last
How did it ever slip away?All through the day
I keep wanting you
All through the night
I keep wanting youI feel it burn
Feel it burnDon't say that it's wrong
To be missing you all the time
Everyday that you're gone
I die a little more insideMaybe I'm afraid
You didn't explain
Our love was made to last
How did it ever slip away?All through the day
I keep wanting you
All through the night
I keep wanting youI feel it burn
Feel it burn
