Conscience & Consequence

Thornley

Ask me if I'll burn
I'll burn but not on the outside
Ask me if I dream
Alone with you there beside me
The less that you know, it seems
The further we can go from today
Gotta drown myself with doubles of sorrow
Give me one more round, I'll be fine
Same old story, it's still conscience and consequence
'Cause I'll never be that refined
So ask me if I know
A way to breathe underwater
Woah, and ask me if I know
A way, a way to be muttered
The less that I know, it seems
The further I can go from today
I gotta drown myself with doubles of sorrow
Give me one more round, I'll be fine
Same old story, it's still conscience and consequence
'Cause I'll never be that refined
I'll never be, I'll never be fine
Woah, so ask me if I know
A way to breathe underwater
Gotta drown myself with doubles of sorrow
Give me one more round, I'll be fine
Same old story, it's still conscience and consequence
'Cause I'll never be that refined
