

# Blood Is Thicker Than Water

## III NiÃ±o

You can be sure, I'll always do my best to never let you down  
I know you won't let me down  
You're the light that will never leave me  
You light up my way  
I can always count on you  
And I swear  
I will keep it close  
Cause your love's the most precious thing that I've ever had  
And I know you will do the same  
Cause our friendship's what keeps us alive  
I know you won't let me down  
You're the light that will never leave me  
You light up my way  
I can always count on you  
Let me say we are more than friends  
Cause we are brothers and brothers are fucking blood  
And brothers are a fucking family  
Oh, I can't see our future  
But I'm sure, yeah, that we'll be together

I swear  
I will keep it close  
Cause your love's the most precious thing that I've ever had  
And I know you will do the same  
Cause our friendship's what keeps us alive  
I know you won't let me down  
You're the light that will never leave me  
You light up my way  
I can always count on you  
This is my love that will last forever  
This is my love that will last forever  
This is my love that will last forever  
This is my love that will last forever  
I know you won't let me down  
You're the light that will never leave me  
This is my love that will last forever  
I know you won't let me down  
You're the light that will never leave me

This is my love that will last forever
