Who Knows

Jovanie

Ohhhh I gotta tell the truth
You the one that it's been all my time
Anyone, you and me on my line
Push all them other girls to the side
For you
Gotta keep it one-hunnid
You like the city, girl I'll never leave
Drawing hearts around my name i-in your diary
Like LL I'm in too deep
Yeahhhh

You like me, I like you, we on it
And you stay on your grind, and you don't trip
You the type that I like and I want it
I can't even front
Cuz on my mama I say...

Who knows me better than you
Yeah Yeah
Who loves me more than you do
You do
Ain't nobody else can
You the one who understands yeah
I'm just asking
Who knows me better than you, than you
You (You)
You do
Than you (you, you), than you
Than you (you, you), than you
Who knows me better than you, than you
You (You)
You do

Baby
I'm feeling you
I can't even front
You make me (make me go) crazy
I wasn't even looking for love
When you look at me

Makes me wanna see (Oh)
If you a keeper
I think I'll keep ya
Always have me down in your life

You like me, I like you, we on it
And you stay on your grind, and you don't trip
You the type that I like and I want it
I can't even front
Cuz on my mama I say...

Who knows me better than you
Yeah Yeah
Who loves me more than you do
You do
Ain't nobody else can
You the one who understands yeah
I'm just asking
Who knows me better than you, than you
You (You)
You do
Than you (you, you), than you
Than you (you, you), than you
Who knows me better than you, than you
You (You)
You do

My mama love ya
My friends think you cool and that's why I chose you
You're there for me
And every time I go away you be the one waitin for me
It don't get no better
Top model, you can rock whatever
Ride or die through whatever
Cuz on my mama (got me thinking)

Who knows me better than you
Yeah Yeah
Who knows me more than you do
You do
Ain't nobody else can
You the one who understands yeah
I'm just asking
Who knows me better than you, than you
You (You)

You do
Than you (you, you), than you
Than you (you, you), than you
Who knows me better than you, than you
You (You)
You do

Who else
Other than you babe
Other than you babe
