## A VERY SPECIAL LOVE SONG

## **Charlie Rich**

Babe

Somewhere I know Im gonna find it, babe Itll have my love behind it And it will be a symphony Of all you mean to me A very special love songAnd babe If theres a way you know Im gonna say it, babe If theres a melody, Ill play it! And Ill play it through, especially for you And all the words are true A very special love songSo dont be surprised if youre sittin alone and you hear it Cause Im gonna sing it to the whole big lonely world So turn your radio way down low and get near it And Ill tell the world, I love you girl!Babe If theres an ounce of love, Im gonna give it to you, babe If theres a breath of life, Im gonna live it Every day for you and all the whole life through Singing just for you A very special love song! For you
