

A Love From Outer Space

The Asphodells

She loves me she loves me she loves me

 A love from outer space

She loves me she loves me she loves me

 A love from outer space

She loves me she loves me she loves me

 A love from outer space

 A love from outer space

It's true oh I know where she's coming from

 Space is where we both belong

 Got to tell her in this song

This time nothing can go wrong Take a ticket to ride this space express

 Meet the girl in the star dress

 A dress that I can never guess

 I just can't wait for her caress

 She comes from milky way

 She came to earth for my birthday

We worked hard we nearly get to say hi Shalalalalalala hoo She loves me she loves me she loves me

 A love from outer space
