

One of the Three

James

You were one
One of the three
One in three must find some peace
You were one
One of the three
I need proof before belief Oh well, you just knew they'd come for you
So it was suicide, suicide
Oh well, now you got just what you want
I hope you're satisfied One of the three (x4) You were one
One of the three
One in three must find some peace
You were one
One of the three
I need proof before belief Oh well, I guess you're not to blame for what they've done to me in your name
Oh well, it's a shame you got so famous for a sacrifice One of the three (x8) You were one
One of the three
One in three must find some peace
You were one
One of the three
I need proof before belief You send forth your lamb to their slaughter (x4)
