Suicide Woman LyricsShe slides the room like a snake

She's got a man at home but she's on the make

She's a woman but she acts like a little girl

I don't know why I even went out with herCause she might look pretty but she's ugly as hell

Everyday I went out with her I was just killing myself

You get once a chance at love and her time has passed

Cause she might look prettySuicide suicide going out with her was like a suicide

and I was killing myself

Suicide suicide going out with her was like suicide

so put the bullet in my head (2x)She likes to take things a little too far

Baby, why are you always the last one at the bar ?

She had her fun when I was in ruins

All my friends wondered what the hell I was doin'Cause she might look pretty but she's ugly as hell

Everyday I went out with her I was just killing myself

You get once a chance at love and her time has passed

Cause she might look prettySuicide suicide ...
