Slip Away

Jordan Hill

Let's sit and talk it over, express to one another
The things we feel, the things we both need to reveal
Let's start communicating before it's much too late
And I do believe it's time that we speak candidlyI'll forgive you for the pain
If you forgive me just the same
Let's kiss and make-up
Before we slip and break upWe can't let it slip away
Our love we've got to save before it slips away
We can't let it slip away
Our love we've got to save before it slips away, before it slips awaySometimes I say things that I say just to attack your pride
Though I really don't mean it, I call myself try to get even
Lord knows we belong together, we know we need each other
I believe we can win if we just try to start all over againIf we listen to our hearts
The way we heard it from the start
I know that when we wake up
We'll find it's time to make-upWe can't let it slip away
Our love we've got to save before it slips away
We can't let it slip away
Our love we've got to save before it slips away, before it slips awayIf we give up on us, I'm sure that we'll regret it
And if we give up on love, I'm sure in time
We'll come to find that it's just not worth it
Just not worth itWe can't let it slip away
Our love we've got to save before it slips away
We can't let it slip away
Our love we've got to save before it slips away, before it slips away
