Autocade

Prolapse

Put the car in the drive
No question we'll survive
Thereâ€™s a manacle by the door
You can work out what it's for

Put the car in the drive
No question we'll survive
Thereâ€™s a manacle by the door
You can work out what it's for

I can't see what I can see
Ignorance is bliss to me
Say I'm weak and say I'm greedy

I can't see what I can see
Ignorance is bliss to me
Say I'm weak and say I'm greedy

I've made you mad again
Sorry but I forget
If my memory serves me right
You never came home that night

I've made you mad again
Sorry but I forget
If my memory serves me right
You never came home that night

I can't see what I can see
Ignorance is bliss to me
Say I'm weak and say I'm greedy

I can't see what I can see
Ignorance is bliss to me
Say I'm weak and say I'm greedy

Say I'm weak and say I'm greedy
Say I'm weak and say I'm greedy

Put the car in the drive

No question we'll survive
Thereâ€™s a manacle by the door
You can work out what it's for

I've made you mad again
Sorry but I forget
If my memory serves me right
You never came home that night

I can't see what I can see
Ignorance is bliss to me
Say I'm weak and say I'm greedy

I can't see what I can see
Ignorance is bliss to me
Say I'm weak and say I'm greedy

Say I'm weak and say I'm greedy

I can't see what I can see
Ignorance is bliss to me
Say I'm weak and say I'm greedy
