Time Bomb

Sloppy Seconds

I got a time bomb
And it's ready to blow
I got a time bomb
Just like I told you beforeYou think you'll run away
And live to fight another day
But what do you think
You're running from?I got a chainsaw
All shiny and new
I got a chainsaw
And I'm looking for youYou used to fool around
And try to make me look the clown
But who do you think
You're fooling now?I got a time bomb
And it's ready to blow
I got a chainsaw
And it's rarin' to goYou're begging on your knees now
Dear God, don't kill me, please
But who do you think
You're talking to?
