If It's Alright

Lindsay Lohan

I should've known the day we met
The way you turned and waved at me, I never will forget
Two years later who'd've guessed
That we would make it this far just to put it all to restAnd if it's alright, I'll stay until it's late
Until you tell me that it's time that we moved on
And if it takes all night, I'll wait here till the daylight
So that I can see that we just don't belong
It's alright, we were wrongIf you're crazy then I'm insane
Two people with the same condition, it never goes away
It's not our problem anymore
But let's just call it even when I'm walking out that doorAnd oh, it won't be easy
'Cause it was hard from the startAnd if it's alright, I'll stay until it's late
Until you tell me that it's time that we moved on
And if it takes all night, I'll wait here till the daylight
So that I can see that we just don't belong
It's alright, we were wrongMust've met for some reason
It's in the sky something from up high
We must have met for some reason
It wasn't a lie, it just wasn't right, it just wasn't rightAnd if it's alright, I'll stay until it's late
Until you tell me that it's time that we moved on
And if it takes all night, I'll wait here till the daylight
So that I can see that we just don't belongAnd if it's alright, I'll stay until it's late
Until you tell me that it's time that we moved on
And if it takes all night, I'll wait here till the daylight
So that I can see that we just don't belongIt's alright, we were wrong
It's alright, we were wrong
It's alright, we were wrong
Oh, it's alright we were wrongI should've known the day we met
