Out/In

Remy Zero

One night
One flash of brilliant light
I pray you come soon
Strong words
Strange hands
A million
I pray I get through to you

So go out and make
Strong your stance
You were the best of them
Just breathe out and in
Hold me again
Cause then you're off to them
Like the rest of them
You're gone

And I'll wait
I'm fine here I could wait
I'll wait till you get here
Just be the star
I have always known
You were perfect sound
You're perfectly clear from here

So go out and make
Strong your stance
You were the best of them
Just breathe out and in
Hold me again
Cause then you're off to them
Like the rest of them
You're gone

I'm falling down
My wings don't work
The way that yours do
I know
Just turn and walk along
Till you get home

I'll meet you at home

So go out and make
Strong your stance
You were the best of them
Just breathe out and in
Hold me again
Cause then you're off to them
Like the rest of them
You're gone

One night
One flash of brilliant light
I pray you come soon
