

Out of My Control

Justin Currie

Once I get my heart back in my hand
I'll squeeze out of every drop of love I can
To rid myself of you ? I want with all my soul
But what I want is out of my control, my control

All I'd have to do is fool around
Drag out this old carcass on the town
I know how it is done ? just shake the dice and roll.
But what I want is out of my control

Why can't I free myself, climb out of this hole?
Deep inside you have taken hold
I try, try, try ? but every time,
I just find it's out of my control.

Twenty planes they leave the runway every day
Taking yet another chance away
I could cut and run ? take half what makes me whole.
But what I want is out of my control

Yeah baby, it is out of my control
