

Defeated

Les Thugs

Hey are afraid of the strangers,
When we're ashamed of the whites.
Whereas we open our arms (we try),
They wanna lock all the doors.
Well I'm afraid there's the chance
We'd be defeated again ...They call for the worst part of man
When we beg him to be good.
Don't wanna hurt anyone (we try),
Whereas they long for a war.
Well I'm afraid there's the chance
We'd be defeated again ...They are looking for a leader,
When we stand equals and free.
We wanna be decent and true (we try),
When they are using the lies.
Well I'm afraid there's the chance
We'd be defeated again ...
