## Haujobb

Life, reduced to survival, aimless wandering citizens

Scattered all over, is this a virtual country? Testify till this accomplishment jacked on the wire  
To 1000 billion degrees fast fiction, you have to head it off Machines require embracing, changes effective  
information

Spread a million megabytes, searching for the right direction

It's just a program, could never produce anything Testify till this accomplishment jacked on the wire  
To 1000 billion degrees fast fiction, you have to head it off
